

S.T.I.N.G. Conference

Colorado Threat Intelligence Network Group

STING is a state wide organization whose mission is to disseminate intelligence and monitor the activity of gangs, drugs, terrorism and juvenile violence within our community.

The nature of the criminal activity conducted by these individuals, and/or groups is increasingly becoming more visible. STING was formed to meet the growing need for more pro-active law enforcement activity. The organization is composed of Federal, State, County and Local Criminal Justice Agencies.
